

1 STEP

YARDI SYSTEMS

Direct Filing to MPAC

MPAC partners with Yardi Systems to bring you an automated solution for realty assessment filing. A dynamic add-on module to Yardi Enterprise and Enterprise Express Property Management Software, it integrates with the system and provides an interface that easily extracts data needed for your realty assessment. The module further provides direct access to MPAC by allowing you to submit the information electronically in a secured environment.

Save Time

What once took hours, now takes minutes. Typically, the time required to complete and file the correct forms can take up to 8 hours per property. With Yardi's Internet solution the average time is just 15 minutes.

Save Money

If time is money, consider your 97% savings in time. Plus:

- No need to Re-Key Data
- Less Chance of Clerical Error
- Eliminate cost of 3rd Party Consultant
- Avoid Costly Fines for Non-Compliance

Meet Legislative Requirements

Make your deadlines. Gone are the days of organizing and manually completing the necessary forms. The Yardi MPAC add-on module automatically completes them for you and allows you to modify the information prior to submission.

- Tenant Verification & Rental Data Request form
- Commercial & Industrial Rental Data Request form
- Property Income & Expense form

Resolve Submission Issues

MPAC requires a substantial amount of data. Traditionally, realty assessment filing is time consuming and the forms can be difficult to complete. In addition, incorrect data and incomplete forms are not acceptable. Yardi's MPAC module simplifies the process, making your realty assessment filing stress free.

Reduce Risk of Non-Compliance

Eliminate clerical error, costly resubmission, follow-up, and potential penalties and legal action for non-compliance. By using the Yardi MPAC add-on module your data will be accurate and consistent.

Simplify Communication

The Yardi MPAC add-on module is a true Business-to-Business solution. It streamlines the submission requirements for MPAC with an intuitive interface and automated features.

Enhance Confidence

With the Yardi MPAC add-on module you can be confident that your submissions are complete and accurate with minimal time invested.
